

### Fall Painting for Protection.

TO PAINT RIGHT—THE RIGHT PAINT IS NEEDED

Fall is the best time to paint buildings. The paint dries more naturally and forms a more elastic coat. If you have buildings which need covering, now is the time to do it. Protect your buildings against the ravages of inclement weather. We have everything needed for any job of painting or finishing.

### FAIR PREPARATIONS.

Work was begun in dead earnest in the preparations for the agricultural exhibit to be held on the 12th and 14th. The committee having the matter in charge is having pens and coops built around the court house square for the hog and poultry exhibits and hitching stanchions for the horse and cattle exhibits. Tables and shelves are also being prepared inside the court house for the corn, potatoes, cane, hay, canned goods and the various other farm exhibits. Everything will be in readiness by the opening day and the indications now are that the exhibit and fair will both be great successes. Very large crowds are expected on both days.
